Exceptionally Interesting Works
By DOROTHY GAYNOR BLAKE

Dorothy Gaynor Blake is one of the most interesting of young American composers. Gifted by nature, she inherited from her mother, Jessie L. Gaynor, those sound principles of pedagogy which are to-day the standards in the musical training of the young.

At the age of four she read music, played the piano and improvised original melodies. Abandoning a concert career, Mrs. Blake turned to composing, determined to carry out and extend those ideals which have become traditional.

Her first published work, "Melody Book" is one of the most successful beginners' books in circulation. Recently it was transcribed in Chinese for class instruction in missions.

Other books have followed from time to time, each carrying out some progressive plan for the advancement of music.

CHILDREN'S BOOKS By Dorothy Gaynor BLAKE

DOROTHY GAYNOR BLAKE

AMERICAN Composer, whose mother, Jessie L. Gaynor, was one of the pioneers of the modern method of teaching children music. She was one of the first composers to write a book teaching both clefs from the very first lesson and to advocate class-teaching.

As the constant companion of her mother, Dorothy Gaynor Blake met the most noted educators both in America and Europe. Having an unusual gift for composing she naturally determined to carry on and extend those lofty ideals which were so dear to her mother. The following works will affirm how progressively she has worked toward the general advancement in music and for better education of children.

MELODY BOOK
A First Book

Little pieces planned to teach the letter-names of the staves, as well as a general idea from middle C out, a tone at a time in both directions simultaneously, so as to assure an equal knowledge of both bass and treble clefs.
